

**FILM AND LOCATION  
CATERING BROCHURE**

# Delicious Food on-location

---

**Are you looking for location catering that delivers consistently excellent service and exceptional food for your film or TV production?**

---

At NBC Catering, our aim is to provide quality, first class TV and Film Location Catering service, to be delivered within your budget. We create beautifully, balanced food enjoyed by all the cast and crew every day.

**We are able to provide:** Early morning teas, Wholesome Breakfasts, Running teas, Continuous Lunches, Dinners and Canapes. We provide a reliable and professional catering service for a range of needs including:

- ▶ **TV Catering**
- ▶ **Film Catering**
- ▶ **Commercials**

## We know how important mealtimes are to crews

Feeding hungry crews is what we do best! We can deliver scrumptious, hearty food whenever and wherever to meet your cast and crew's requirements. We thrive in any location.

Got a TV advert to make or a movie to shoot? We have got your back. We welcome the challenge of any location and are confident that the service and quality we deliver will exceed your expectations.

Remote locations shouldn't mean a drop in standards and our dedicated team excel in bringing culinary creativity to all parts of the country.

## Why you should work with NBC Catering

*Our philosophy is simple: we deliver a great catering experience wherever you are.*

### Beautifully Balanced Food That Tastes Great

Food is the fuel that keeps your cast and crew going on night shoots, wet weather days, and through the long hours of a shoot. Our menus are seasonally adjusted, and we create them using quality ingredients. All our food is prepared by trained chefs and served by professionals. You can expect to see new dishes rather than the same rotating menus.

### Dietary Requirements

We are able to cater for all dietary, nutritional and allergen requirements as our chefs are fully trained and aware of the different needs people have. Also adapt our menus to meet your dietary requirements.

### Flexibility

The nature of location catering has taught us to become pretty flexible as filming timings and locations can change at the last minute. We are not just flexible though, we are positively bendy! We are small enough to care and look after our clients, but large enough to deal with the biggest productions.

### Sustainable Catering

At NBC Catering we take sustainability seriously. The demands of location catering make it all too easy to pile on the plastic, but we're committed to operating as sustainably as possible.
